

Mr. Watson®

AUTUMN / WINTER 2024

YOUR STELLAR SIDEKICK

Meet Norbitt, your cosmic companion who's here to light up your universe. With his little feet, he's ready to stand by your side, making even the most mundane tasks feel like intergalactic adventures.

Look who just stepped out of a sci-fi movie or borrowed some bling from a futuristic spaceship. Meet Norbitt in dazzling Cosmic Chrome! He's sleek, he's stylish, and he's out of this world!

Cosmic Chrome | NB2-CC

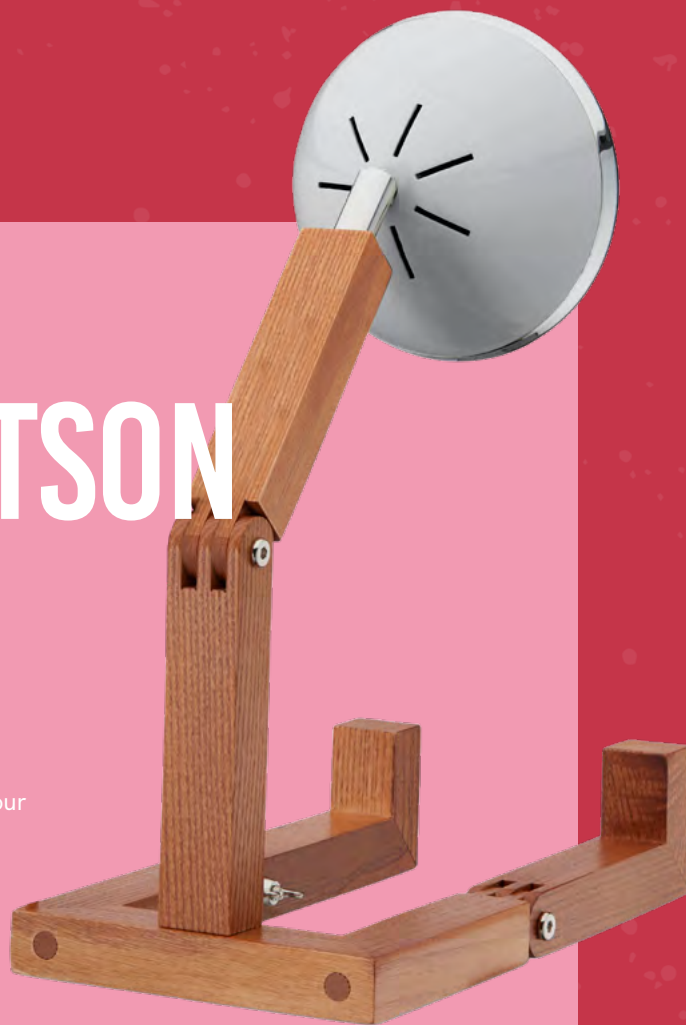

This rechargeable explorer is compact yet powerful, illuminating any corner with a 360-degree swivel. Norbitt offers three dimming options to set the mood, from 'subtle starlight' to 'interstellar disco'.

Cosmic Chrome | NB2-CC

HELLO MR. WATTSON

Meet the iconic Mr. Wattson. He's a looker, isn't he? But there's more to him than his good looks and he thinks it's about time people knew that. "You wouldn't say, but I have a powerful LED bulb that can brighten any room and 139 glass dimples that create a warmer atmosphere than your mother." No need to get personal, Mr. Wattson! We believe you.

Nardo Gray | 12V-SWR-NG

Chiltern Green | 12V-SWR-CG

FLEXIBLE MR. WATTSON

Mr. Wattson's flexible limbs allow him to live on the edge. "What can I say? I'm an adrenaline junkie." We think your dangling legs are more 'cute' than 'adrenaline junkie' but we'll let you have it Mr. Wattson.

METAL HEAD MR. WATTSON

Mr. Wattson noticed that humans sometimes don themselves in shiny metals. "Why can't I?" And so, he now comes in brass matt black (his bling look) as well as black on black (his gangsta look).

MR. WATTSON'S COLOURFUL CLOSET

Norbitt is quite an outdoorsy fella (coming from outer space and all), so he can accompany you on your adventures in the great outdoors to do some stargazing (his favourite) or just grilling marshmallows on your deck. You can choose your Norbitt in one of seven dazzling colours - he has more shades than a supernova.

Cloudy Blue | NB-CB

Introducing the Norbitt Wall Mount - it's the perfect perch for your little space explorer! Norbitt loves to see everything from up high, and with his magnetic mount he feels like he's floating above you in zero gravity. Snap him onto the wall and let him light up your universe from his new favourite spot. Plus, his magnet hides a clever groove to keep his charging cable tidy.

MAGNETIC MAGIC

Wall Mount | NB-WM-CW

HEY LOOK - IT'S MINI ME

Caffé Latte | MIN-DWR-CL

Mini Wattson is Mr. Wattson's adorable mini-sized USB-powered friend. Some would think it's difficult growing up in the shadow of Mr. Wattson, but Mini Wattson points out that his situation is somewhat different. After all, Mr. Wattson is a lamp, so he actually grew up in the light of Mr. Wattson, which is a good place to be.

Mushroom Brown | NB-MB

McClaren Orange | MIN-SWR-MO

HANG OUT WITH MR. WATTSON

It shouldn't come as a surprise that Mr. Wattson likes the spotlight. What you perhaps didn't know is that he likes the environment too. His pendant light makes use of the latest energy-saving LED technology, which allows him to hang out with you for hours on end, guilt-free. More wine, anyone?

MEGA SIZE, MEGA IMPRESSIVE

Mega Wattson taught Mr. Wattson everything he knows about lighting. Mr. Wattson looks up to Mega Wattson not just because he's taller, but because he's a super-sized version of Mr. Wattson that can work just about any room.

TOP-SHELF

Mr. Wattson now has a special floating shelf made just for him. Seems crazy, right? Well, he didn't like his cable getting in the way, so we designed the perfect shelf to tuck it neatly behind. Also available for the Mini Wattson - we couldn't leave him out, now could we?

MR. WATTSON'S HOBBIES

Vintage White | 12V-SWR-VW

Snowboard Table Stand | SB-SWR-SN

If Mr. Wattson had a Tinder profile, he'd definitely lead with this photo. Between you and I, he's not really an outdoors kind of guy, but you could indulge this fantasy of his by buying him a surfboard or a snowboard table stand. And maybe take a pic for him.
